Form B 09a - DN/HN

(Issued under Circular No. 200/2014/TT-BTC and No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

These notes form an integral part of and should be read in conjunction with the accompanying financial statements.

# 1. Reporting entity

Masan High-Tech Materials Corporation ("the Company" or "MHT") is incorporated as a joint stock company in Vietnam. The principal activity of the Company is investment holding.

# 2. Basis of preparation

#### (a) Statement of compliance

The separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

The Company prepares and issues its consolidated quarterly financial statements separately. For a comprehensive understanding of the consolidated financial position of the Company and its subsidiaries (collectively referred to as "the Group"), their consolidated results of operations and its consolidated cash flows, these standalone quarterly financial statements should be read in conjunction with the consolidated quarterly financial statements of the Group for the period ended 30 September 2020.

#### (b) Basis of measurement

The separate financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate statement of cash flows is prepared using the indirect method.

#### (c) Annual accounting period

The annual accounting period of the Company and its subsidiaries are from 1 January to 31 December.

#### (d) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"). The separate financial statements are prepared and presented in VND rounded to the nearest thousand ("VND'000").

Form B 09a - DN/HN

(Issued under Circular No. 200/2014/TT-BTC and No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

# 3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Group and the Company in the preparation of these separate financial statements.

# (a) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amount of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

#### (b) Investments in a subsidiary

For the purpose of separate financial statements, investment in a subsidiary is initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the investee has suffered a loss, except where such a loss was anticipated by the Group's management before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

#### (c) Accounts receivable

Accounts receivable from customers and other receivables are stated at cost less allowance for doubtful debts.

#### (d) Intangible fixed assets - Software

Cost of acquisition of new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software costs are amortised on a straight-line basis over three (3) to eight (8) years.

#### (e) Accounts payable

Accounts payable to suppliers and other payables are stated at their cost.

Form B 09a - DN/HN

(Issued under Circular No. 200/2014/TT-BTC and No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

#### (f) Business cooperation contract

Business Cooperation Contracts ("BCC") are those under which contracting parties agree to carry out specific business activities that do not require an establishment of legal entity. The Company accounts for each BCC according to its substance and its rights and obligations under the contract. Where the Company receives contributions in the form of financial assets from the other parties and as a result assuming a contractual obligation to deliver cash or other financial assets to those parties under the BCC, the Company recognise a financial liability. Where distributions of profits to the other BCC parties have the substance of finance costs, they are recognised as financial expenses based on the rate of returns as agreed by contracting parties. Distributions which are contingent on the ultimate operating results of the BCC are recognised as an expense when such contingent distributions become probable.

#### (g) Bonds issued

At initial recognition, bonds are measured at cost which comprises proceeds from issuance net of issuance costs. Any discount, premium or issuance costs are amortised on a straight-line basis over the term of the bond.

#### (h) Equity

#### (i) Ordinary shares

Ordinary share capital is classified as equity. The excess of proceeds contributed over the par value of shares issued is recorded as share premium. Incremental costs directly attributable to the issue of ordinary shares are recognised as a deduction from share premium.

#### (ii) Preference shares

Mandatorily convertible preference shares are classified as equity, because they are entitled to fixed dividends and any discretionary dividends declared to ordinary shareholders and it participate equally in the residual assets on dissolution. The excess of proceeds contributed over the par value of shares issued is recorded as share premium. Incremental costs directly attributable to the preference shares are recognised as a deduction from share premium.

#### (i) Taxation

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the end of the accounting year, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using tax rates enacted or substantively enacted at end of the annual accounting year.

Form B 09a - DN/HN

(Issued under Circular No. 200/2014/TT-BTC and No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### (j) Financial income and financial expenses

#### (i) Financial income

Financial income comprises interest income from deposits and loans and foreign exchange gains. Interest income is recognised as it accrues in the statement of income.

#### (ii) Financial expenses

Financial expenses comprise interest expenses on borrowings, facility fees, financing costs, transaction costs and foreign exchange losses.

#### (k) Borrowing costs

Borrowings costs comprise interest expenses on borrowings, facility fees, financing costs and transaction costs. Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the year of construction are capitalised as part of the cost of the fixed assets concerned.

#### (l) Related parties

Parties are considered to be related to the Group if one party has the ability, directly or indirectly, to control the other party or to exercise significant influence over the other party in making financial and operating decisions. Parties are also considered to be related if they are subject to common control or common significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party. Related parties that are individuals refer to key management personnel who have authority and responsibility for planning, directing and controlling the activities of the Company, including directors and officers of the Company. Related companies refer to the investors and their ultimate holding companies and their subsidiaries and associates.

Form B 09a - DN/HN

(Issued under Circular No. 200/2014/TT-BTC and No. 202/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

# 4. Cash and cash equivalents

		31/3/2021 VND'000	1/1/2021 VND'000
	Cash in banks Cash equivalents	2,057,415 48,000,000	739,750 51,000,000
